

# Daniel Charbit

Junior full stack developer

## Profile

Junior Full Stack Developer with practical experience in building responsive web applications using JavaScript, React, Next.js, and Node.js. Strong in front-end and back-end integration, RESTful APIs, and PostgreSQL databases. Background in UI/UX testing using Playwright and Selenium. Familiar with GraphQL APIs. Passionate about automation and rapid prototyping, leveraging No-Code tools (Windsurf, Courser, Cline) and AI platforms (ChatGPT, Claude, Perplexity). Quick learner with a problem solving mindset and technical versatility across modern dev environments.

## Employment History

### Freelance Full-stack developer

April 2025 – Present

- Designed and developed full-stack applications using React, Next.js, Node.js, and Express.
- Implemented RESTful APIs and used Postman for integration testing.
- Built and queried PostgreSQL databases using SQL.
- Conducted troubleshooting and debugging to ensure optimal application performance.
- Implemented coding best practices and maintained comprehensive documentation.
- Explored and prototyped with No-Code tools such as Windsurf, Courser, and Cline.

### Freelance QA Tester

January 2025 – May 2025

- Developed and executed automated test scripts using Playwright and Selenium
- Performed both manual and automated testing of web applications.
- Collaborated with the design and dev teams to identify and resolve functional and visual bugs.
- Executed cross-browser testing, documented test cases and reported bugs.

### Freelance Video Editor

January 2024 – January 2025

- Focused on professional video editing for commercial projects, with expertise in story telling.
- Executed video editing tasks for podcast named “מבט לאחור”, ensuring high-quality output.
- Managed multiple projects simultaneously, meeting tight deadlines.
